

# TEENAGE MUTANT NINJA TURTLES

Kids,  
follow these  
simple blueprints,  
it's easy!

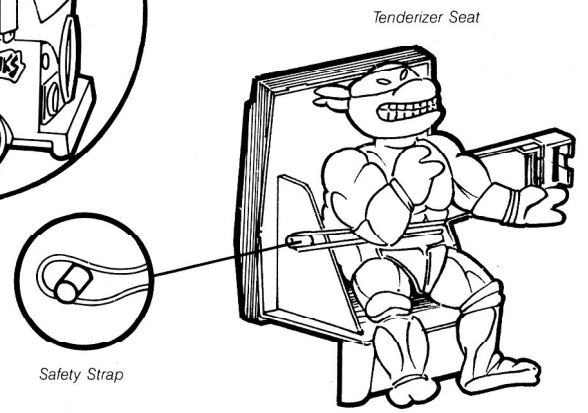

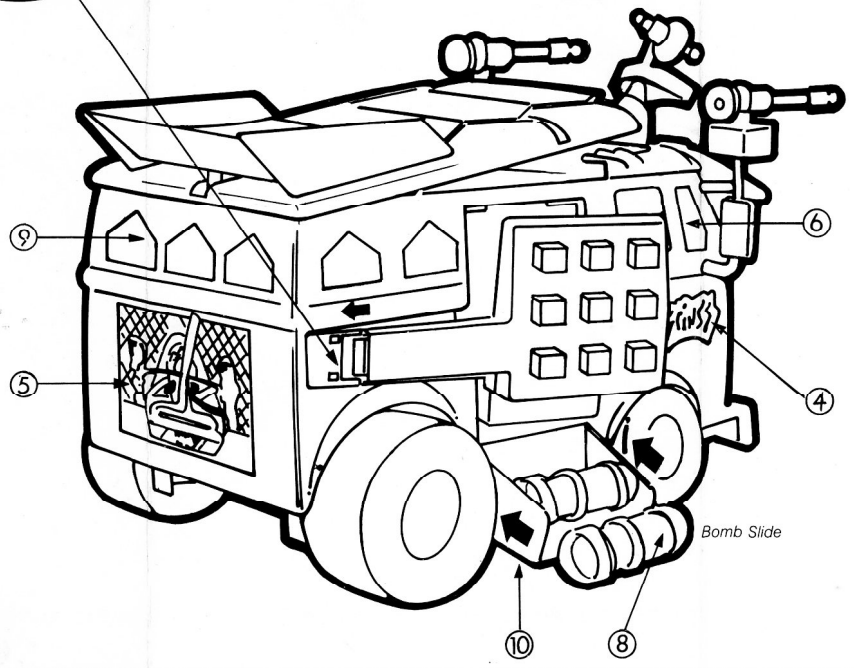

- C. Plug two side mirrors to side of Wagon.
- D. Attach windshield visor above front windshield.
- E. Plug CB Antenna machine guns on top of side mirrors.
- F. Plug radar into radar platform. Plug entire unit into blaster on windshield visor.
- G. Snap super-spoiler on top of flip top.
- H. Place labels on Party Wagon (1-7, 9, 10), on bombs (8) as shown.

- DIRECTIONS:**
- To ready Party Wagon for battle: place figure in tenderizer seat and hold in place with safety strap rubber band. Raise flip top, close tenderizer and lower flip top to hold tenderizer shut.
  - Load the two wacko bombs in bomb slide and shut.
  - To activate tenderizer, pull back on super spoiler. Spring loaded tenderizer flies open, automatically releasing two wacko bombs. If tenderizer does not open freely, check position of figure in tenderizer. Do not force tenderizer open.
  - Transform machine guns into CB Antennas by removing and reattaching in vertical position.
  - Remove radar and radar platform to expose blaster.

- ASSEMBLY:**
- A. Snap bomb slide into lower section of side opening in Wagon.
  - B. Snap spring loaded tenderizer into door hinge.
