

# TEENAGE MUTANT NINJA TURTLES

Kids,  
follow these  
simple blueprints,  
it's easy!

## RADICAL ROCK'N ROLL STAGE

### Assembly

1. Attach rockin' roof to the top of the bus.
2. Plug party time pennant poles (2) to the inside of the radical rear doors (2). Plug doors to rear hinges. Make sure pennant poles are pointing down to close the doors. Attach side-mounted sewer speakers (2) to inside of bus stage area.
3. Snap window/stage support (window without posts on inside) to left side of bus. Attach left side of bus to hinges at bottom of bus as shown in Diagram A.
4. Plug (2) penetrating pencil missiles to posts on inside of right side window. Attach window to right side of bus as shown.
5. Plug pop-up visor to top front of bus. Snap front bumper to bottom front of bus.
6. Place labels 1-39 where indicated.

### Directions

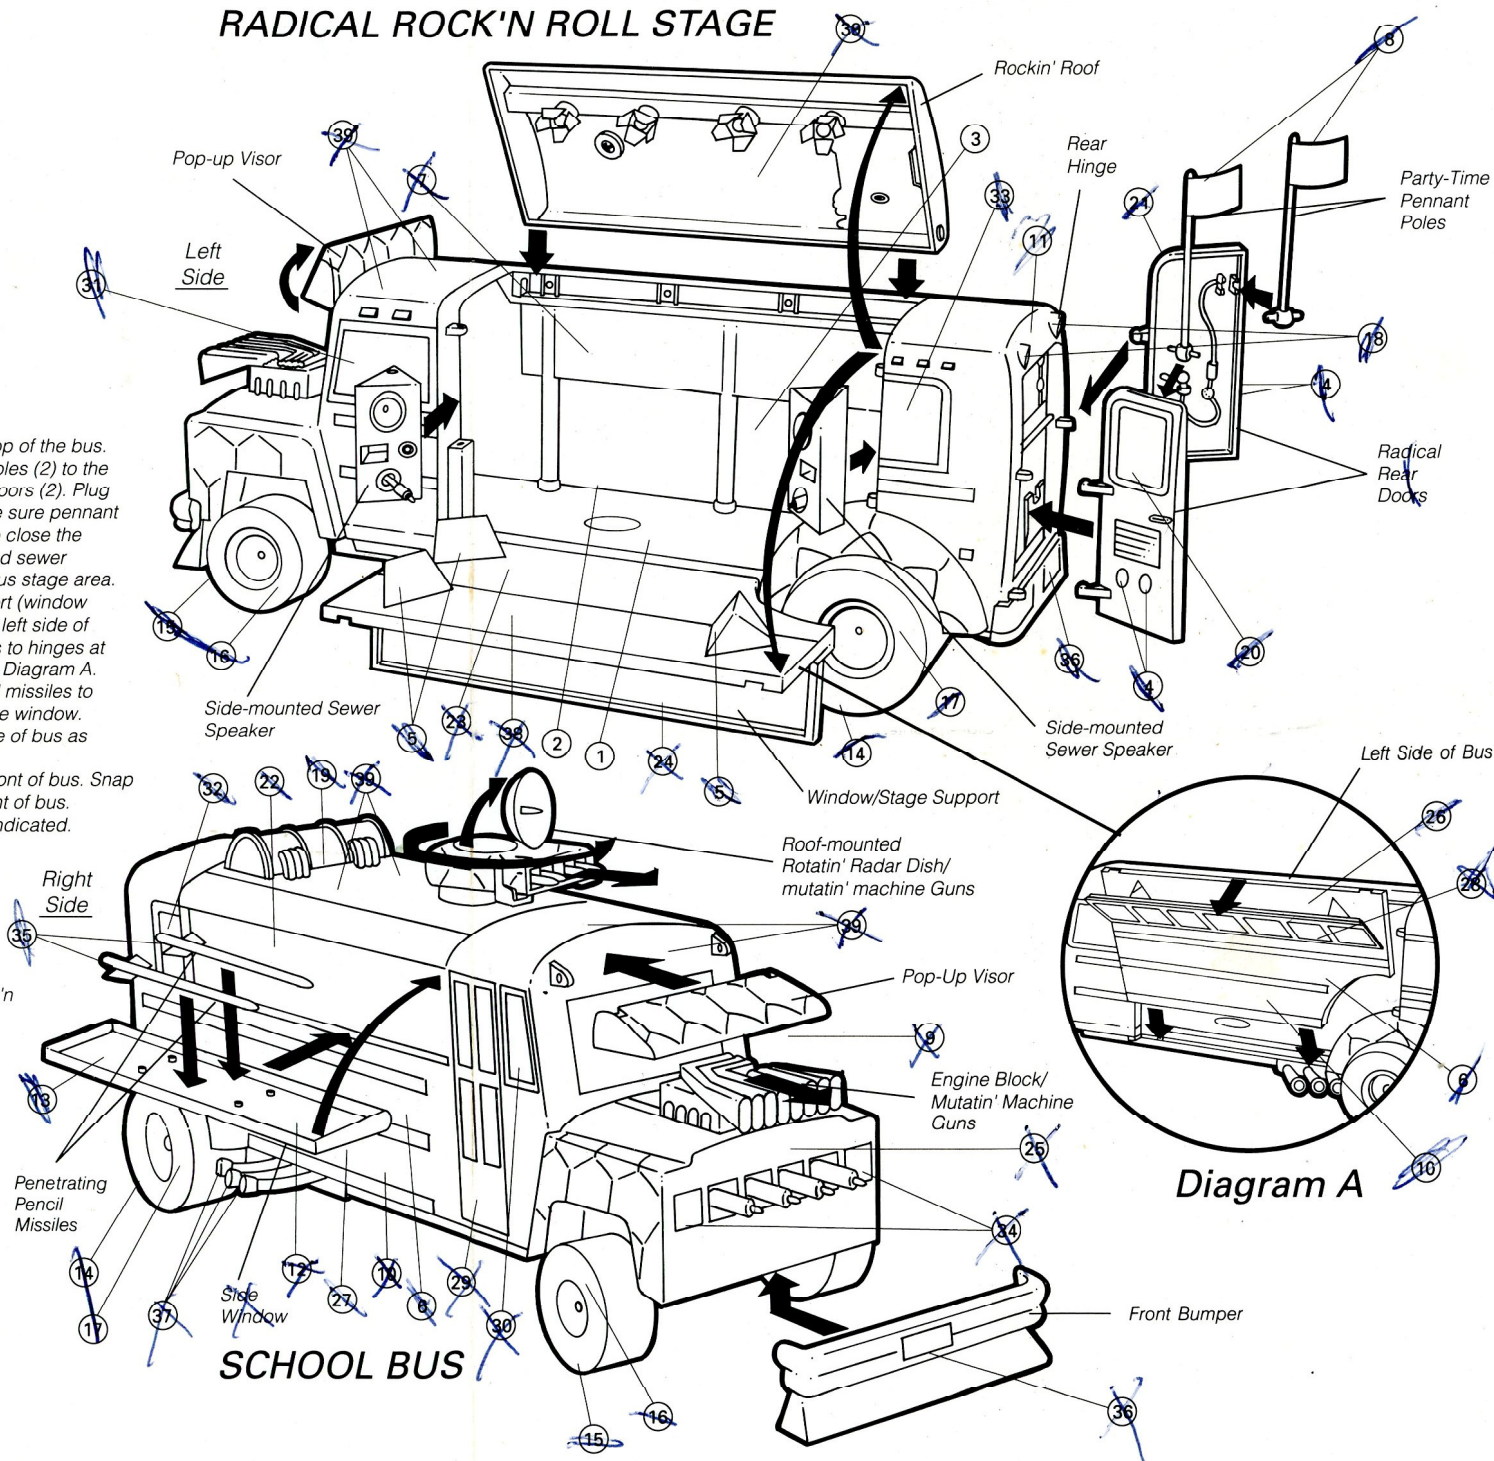

To mutate from bus to rock'n roll stage:

1. Lift up rockin' roof and fold down the left side window to support stage.
2. Fold down the left side of the bus and swing out the side mounted sewer speakers to create the super sewer slick rock'n roll stage. Place a few of your favorite Rock'n Roll figures (or any other green guy, sold separately) onto the rock'n roll stage. Now the green teens are ready to put on a crazy kowabunga concert!

For more excellent mutation mania:

- Shift the engine block forward to free-up the ear-deatenin' mutatin' machine guns!
- Pop-up the roof-mounted rotatin' radar dish and track the nefarious Foot fiends! Shift the lever forward to expose the roof-mounted mutatin' machine guns!
- Flip up the pop-up visor to reveal the awesome rock'n roll billboard!
- Pop down the right side window to expose the penetrating pencil missiles!
- Swing open the radical rear doors to reveal the wild weapons sewer storage locker. Pop up the party time pennant poles.

## SCHOOL BUS
