

**TEENAGE MUTANT NINJA
TURTLES**
**MINI
MUTANTS
TURTLE-TOP
PLAYSETS™**

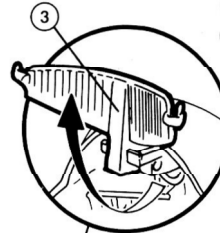

Insert the Foot Crushin' Cannon as shown and swing out to obtain an awesome view of oncoming enemy action.

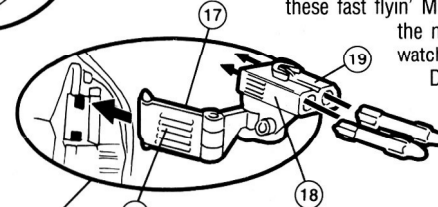

Position Mini-Military Lieutenant Leonardo in the hot seat of the Foot Crushin' Cannon so he can clear out that nasty Foot fungus. Ycchh!!

Raise the Flip Up Radical Radar Dish as shown so Leonardo can scope out the scene and snoop for the Foot.

Attach the Mutant Missile Launcher as shown and swing out. To load Mutant Missile Launcher, insert the missiles as shown until they are all the way back in the launcher. To fire these fast flyin' Missiles, flick the tailend of the missile with your finger and watch them take off! CAUTION: Do not aim the Missiles at anyone's face or eyes.

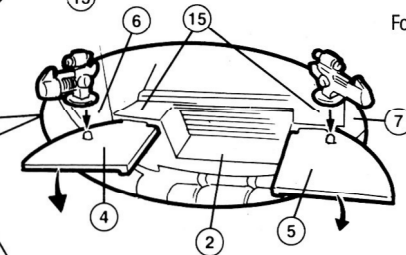

For double duty access from Command Center to Launch Pad, insert the stairway as shown.

Fold down both Mutant Mulchin' Machine gun platforms as shown.

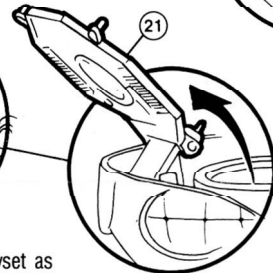

Place the Mutant Mulchin Machine Guns on the platforms as shown. This gives our Mini-Military Turtles a taste of some trashed-up toes.

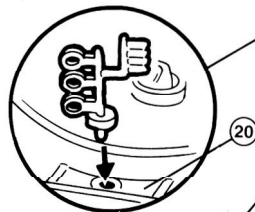

Pro Pilot Raphael is ready for a turtle take off! Lift up the

Fold Down Gyro Jump

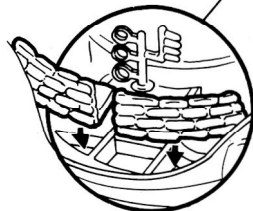

Plane Launching Pad over the side of the playset as shown and prepare for some free flyin' fun! Place Pro Pilot Raphael in the Gyro Plane as shown as he's ready to take off for some awesome aerial action.

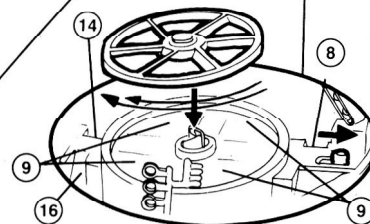

Insert the Awesome Aerial Guidance Antenna as shown and watch our Mini Military Turtle Trackers go to work detecting Foot prints wherever they appear.

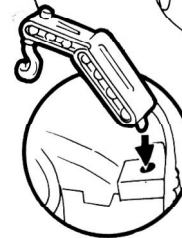

Add extra cover with the Breakapart Sewer Sauce Sandbags, certain to stop any oncoming advances of the Foot.

Now for the rock 'em, sock 'em Spring Powered Whirlin' Roto Blades! Place the Roto Blades onto Spring loaded blade shaft as shown. Turn clockwise to wind until you hear a loud double clicking and turning becomes heavy. Push launch lever to right to release the blades. CAUTION: Do Not aim Rotor Blade at anyone's eyes or face. Do Not face directly over the blades.

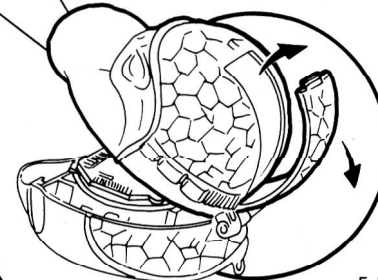

Pizza can sure get heavy after a while. To help with those larger orders, insert the Rotatin' Pizza Loadin' Crane as shown and swing out for duty.

STAND HERE:
TO OPEN the Playset: Firmly hold the bottom half of LEONARDO'S head with the one hand. Pull up on the upper half with the other hand and raise it to a vertical position. Remember, two halves of a turtlehead are better than one!

Fold down the back of Leo's helmet as shown to help support the upper half as you play in and around the Mini-Mutant LEONARDO Military Playset.

Place labels 1-23 as shown.

TO CLOSE the Playset: First, remove the staircase and put the Free Flyin' Gyro Jump Plane nose down into its spot. Then fold all parts into the playset and place all accessories and parts into the control center and carefully lower the upper shell. Watch your fingers, dudes!

How about a little military drill? Try to see how many different ways you can put all the parts back into the playset and see how fast you can do it. About face March!
